Price Changes Small and the Net Changes Few and Still Smaller-Strength of Sterling Exchange.

NEW YORK, Oct. 9 .- The same doubt and hesitation regarding the future course prices was reflected in to-day's stock market as in yesterday's. Speculation was listless and apathetic and the sentiment of EDWARD B. PORTER, Cashier. the small traders whose operations made up the market underwent many variations. Few active stocks show a net change of as much as a point, even where the day's range was considerable. The disposition was to close up contracts both on the long and the short side until the future course of prices outlines itself more definitely. This tendency was demonstrated in the response of Brooklyn Transit and of Atchison to the specific developments affecting them. The annual report of Brooklyn Transit, which was published after the closing of the market last night, was interpreted unfavorably in all the current comment, especially in the disclosure that the treasury bonds had been sold during the year. Yet the stock promptly advanced and resisted an attempt on the part of professional traders to depress the price. The stock advanced at one time 21/2, showing the most conspicuous strength on the market. The increase in the Atchison dividend rate, although confidently predicted in some quarters, had been denied with equal confidence in others. In fact, the decision seems to have been discussed and finally decided in the meeting itself of the directors. The attempt to advance the stock on doubt over the predicted advance was due to the fact of the shortage in the corn crop. Some of the other Southwestern railroads were offered down sharply, as though to emphasize this view. The bull party hesitated to take up the speculation for an advance, owing to the danger that money flurries may still intervene before A. M. FLETCHER the interior movement of currency terminates. Sterling exchange was notably strong to-day on an active demand, sterling the interior movement of currency termistrong to-day on an active demand, sterling fairly touching \$4.86. This is more than a cent in the pound sterling above the gold

import point. Sugar and Amalgamated Copper, which continued active, drifted rather uncertainly, but with a rather firm undertone. Norfolk & Western was bid up nearly two points at one time on the as sumption that recent accumulation of the stock has been for account of Pennsylvania Member New York Stock Exchange Railroad interests. It can be stated with absolute certainty that no cut has seen made and that it is improbable that my will be made. Local consumption is atisfactory, and the stocks on hand have een grossly exaggerated. The market beame dull after the opening, the disposition eing to await the declaration of dividend on Atchison. The news came out about 12 clock that the dividend was 2 per cent, and momentarily the stocks advanced. Heavy liquidation, however, was met comng from people who have been buying the tock for the past few days in the expectaion of an increased dividend. As a stimuant to the market the increase in the diviend was wholly a failure. Prices failed to dvance, and there was next to no increase activity. The bear contingent found conderable encouragement in this, and with ood grounds argued that the tendency of he market had been clearly displayed durng the last ten days by the utter failure f the excellent statement of the Steel Cororation and the increased dividend on Atchison to awaken speculative interest or to bring about higher prices. ### FOR RIVERS AND HARBORS.

Congress to Be Asked for Appropriations-Row Over a Resolution.

BALTIMORE, Md., Oct. 9.-The river and harbor congress completed its deliberations here to-day and adjourned sine die, after which the members took an excursion to Annapolis and other points on the Chesapeake bay. The only incident of note was the practical squelching of a resolution expressing confidence in President Roosevelt. which, instead of being adopted at once, was referred to a committee, much to the displeasure of those who favored its immediate passage. This action was the resuit rather of a disagreement among some of the delegates than a disinclination on the part of the congress to adopt it. The congress adopted resolutions deploring the failure of the national Congress to properly provide for river and harbor improvement and declaring that in opinion

of the delegates there is no more important

duty devolving upon the national legisla-

tors than providing for such expenditures.

A committee was appointed to present the

matter properly at the next session of the

United States Congress.

The usual bearish statistics were present again, and December opened %@1/2c to 1/20% c lower at 69% c to 69% c. A sharp effect, but this was shortlived, and on a revival of selling by bears December declined to 69%c. On covering near the end of the session it reacted slowly, but closed weak and ic lower at 694@69%c. Local receipts were 147 cars, none of contract grade. Minneapolis and Duluth reported 906 cars, making a total for the three points of 1,053 cars, against 918 last week and 789 a year ago. Primary receipts were 1,170,000 bu, compared with last year's 1,113,000. Seaboard clearances in wheat and flour equaled 959,000 bu. Ten loads were taken for export. Corn ruled dull and weak.
